Yealink

REDEFINE YOUR WORKPLACE WITH AN ALL-IN-ONE UC WORKSTATION

Be Heard Crystal Clear

With Yealink Acoustic Shield Technology, the two Microphones built in the WH66 block background noise automatically while at the same time ensuring the participant's voice is heard clearly.

- Acoustic Shield Technology
- Optimal Audio Experience
- LCD Touch Screen
- Multiple Device Connection
- Speakerphone Mode
- Built-in USB Hub

The Yealink WH66 is the Industry-leading DECT wireless headset, with both WH66 Dual and WH66 Mono models, opening an entirely new form of desktop collaboration. Work seamlessly with Unite and integrate natively with Yealink IP Phones. A 4 inch (480 x 800) capacitive touch screen base offers a new user experience giving you full control. Act as a workstation, managing phone calls, connecting with multiple devices (desk phone/mobile phone/computer) and even playing a speakerphone's role. Best of all, to deploy this multifunctional workstation you can plug the WH66 directly into your setup.

All-in-One UC Workstation

Desktop collaboration boosts efficiency when working from home, but it can be an inconvenience when your desktop space is cluttered with device cables.

Take control of your desktop collaboration environment with the WH66:

- Connect all devices you want with built-in Bluetooth and USB ports.
- Expand your PC's connectivity with a 2-port USB 3.0 hub.
- Control all calls on the 4 inch (480 x 800) capacitive touch screen.
- Functions as a hands-free phone.

Interruption Free

Busylight is enabled in the WH66. When the light on the headset turns red, people around will know that you are on a call and wish to not be disturbed.
